make a difference

WHO WE ARE

We're OG Hemp, India's Hemp Entrepreneurs! We're on a mission to promote a tradition that dates back centuries. Hemp paper is the first tree-free, non-toxic paper from the past and an excellent sustainable alternative to conventional tree paper.

WHAT WE DO

We procure sustainably grown hemp fibers, and manufacture Hemp paper that's more eco-friendly, biodegradable and 100% recyclable in contrast to conventional tree paper. We collaborate with brands to create custom promotional and marketing materials.

WHY HEMP

- Hemp paper is 8x recyclable as compared to tree paper (upto 3x)
- An acre of hemp can produce as much paper as 4 -10 acres of trees over a 20-year cycle.
- Hemp stalks take 4 months to mature compared to 20-80 years for trees.
- Hemp has 85% cellulose, the principal ingredient in paper, compared to wood (30%).
- Hemp is highly stable due to (5-24%) lignin content compared to trees (20-35%)

strongest natural fiber

100% hemp based

OUR PAPER

India has a very rich culture, a culture that also includes an age-old tradition which is hand-made paper. This traditional art of making paper by hand has been passed through generations by craftsmen known as 'Kaagzis'. The name was derived from the word 'Kaagaz' meaning paper. Hand-made paper is the most ecofriendly and sustainable form of paper because it is a 100% wood-free paper.

Since it is a labor-intensive sector, it also generates employment for thousands of artisans, thus helping them preserve their art. It also serves as an alternate source of income for the agricultural workers.

MANUFACTURING

Our manufacturing process is completely based on traditional hand-made methods, with an added taste of modern technology.

We produce zero waste throughout our process. We ensure that the energy and water being consumed doesn't affect the environment.

Hemp can easily be composted. The fiber being an organic material, gets decomposed when it cannot be recycled any further.

Water Infiltration rate increases by using industrial hemp compost. Flower head diameter and leaf area increases significantly.

handmade by indian artisans

HEMP PAPER SERIES

GRADE

Tree Free Uncoated/Coated

WEIGHT

- ✓ 100 GSM
- ✓ 200 GSM
- ✓ 300 GSM
- ✓ 400 GSM

MATERIAL

100% Hemp Bast

SURFACE

Smooth
Glossy Smooth

SIZE

- ✓ A1: 23.4" x 33.1"
- ✓ B1: 27.8" x 39.4"

COLORS

- ✓ White
- ✓ Earthy Brown
- ✓ Turmeric
- ✓ Indigo
- ✓ Olive
- ✓ Madder Red

BENEFITS

✓ High bursting factor

✓ Superior Durability

✓ Low ink absorbency

✓ Chlorine Free

✓ Antibacterial

Hemp Mono Cartons

While brands decide to Go Green with packaging, what's better than Hemp Paper MonoCartons for your CBD/Hemp Products

★ Grade
White 340GSM

Variant
**Tuck End type
Auto Bottom Type**

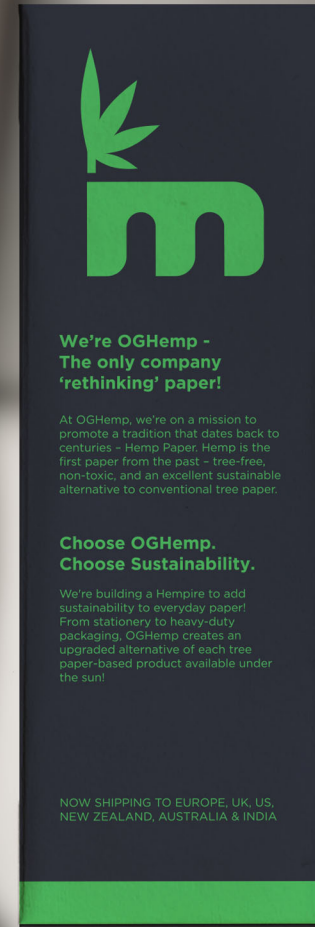

↔ Sizes
**10ml, 30ml, 50 ml and
100ml**

Surface
Textured

FEATURES

- True Hemp Packaging
- Easy Disposability
- Quick Compostability*
- Less Carbon Footprint
- Various Print/Colour Options

**Under Ideal Conditions*

POUCHES

Name
OG Hemp Pouches

Grade
White Polycoated

Weight
100 GSM

Surface
Smooth

FEATURES

- 100GSM white paper with a PolyCoat inside for introducing barrier properties
- Sizes available : Size (Inches)
 - 4.3X6.6
 - 6.29x9
 - 2.5x3.5
 - 3.5x5.1
 - 5.7x7.8
- Heat sealable and Ziplock capable

KRAFT

Name
OG Hemp Kraft

 Grade
Unbleached Kraft

 Variant
**100, 250 & 440 GSM
Single Ply, 3 Ply**

 Surface
Smooth

FEATURES

- Hemp Kraft - A hemp blend ready to face the world and take on the Virgin Kraft category
- Available in various GSM's
- Corrugation capable
- Odourless Alternative to Recycled Kraft
- Custom Sizes for Bulk Orders
- Single Wall, E-Flute

HEMP BOXES

MATERIAL

100% Hemp paper

GRAMMAGE

- ✓ 300 GSM
- ✓ 400 GSM
